TECHNICAL SKILLS

PROGRAMMING
• C/Python

TOOLS AND FRAMEWORKS
• HTML
• CSS
• Javascript
• ReactJs

DOMAIN TRAININGS
• Machine Learning
• Cloud Computing

INTERPERSONAL SKILLS

• Patience
• Emotional Intelligence
• Adaptability

HOBBIES

• Watching movies and series

PERSONAL INFORMATION

• Date of Birth: 02th September, 2002

PROJECTS

HATE SPEECH DETECTION | Project Link
August 2022
Tool/Technology used: Python , Machine Learning
Hate speech detection is the model which identifies and detects hateful and offensive speech being poured on the internet. Social media is a place for many people to make hateful and offensive comments about others. So hate speech detection has become an important solution to problems in today's online world.

PAWHOMES | Project Link
November 2022
